How do I install Grammarly for Windows or Grammarly for Mac?

Grammarly for Windows and Mac integrates with popular apps and websites. Before you download and install this application, please make sure that your computer meets the system requirements.

Windows

Mac

1. Follow this link to download the app.
2. Click on the downloaded file and follow the prompts on the screen to complete the installation. Grammarly should then appear in the menu located at the top of your screen.
3. Open any app or website and start typing—you should see the floating Grammarly widget—and Grammarly will automatically start checking your text.

To learn more about this product offering, check this article.

Grammarly Browser Extension

grammarly

Plans Sign up Sign in

How to install the Grammarly browser extension

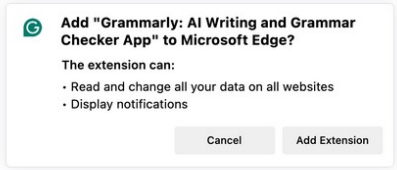
Grammarly offers a browser extension for the following browsers:

- Chrome
- Safari
- Firefox
- Microsoft Edge

Note: Grammarly works best with the latest stable versions of browsers and operating systems; therefore, we suggest you update your software regularly. Other browsers, such as Opera or Brave, are not supported at this time.

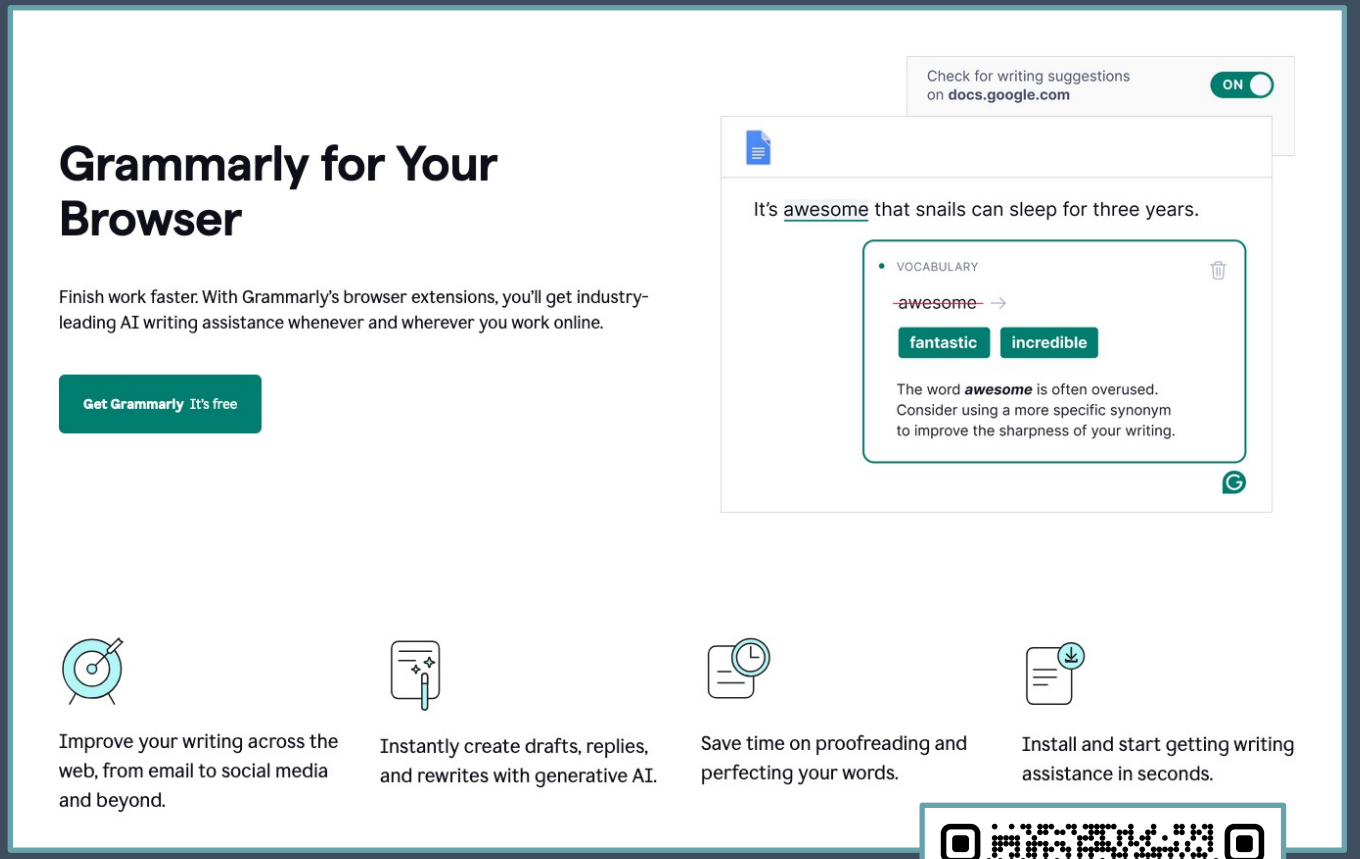
Chrome | Safari | Firefox | Edge

To add Grammarly's browser extension to Microsoft Edge, please click this link. Then, click **Get**, and then press **Add Extension**:

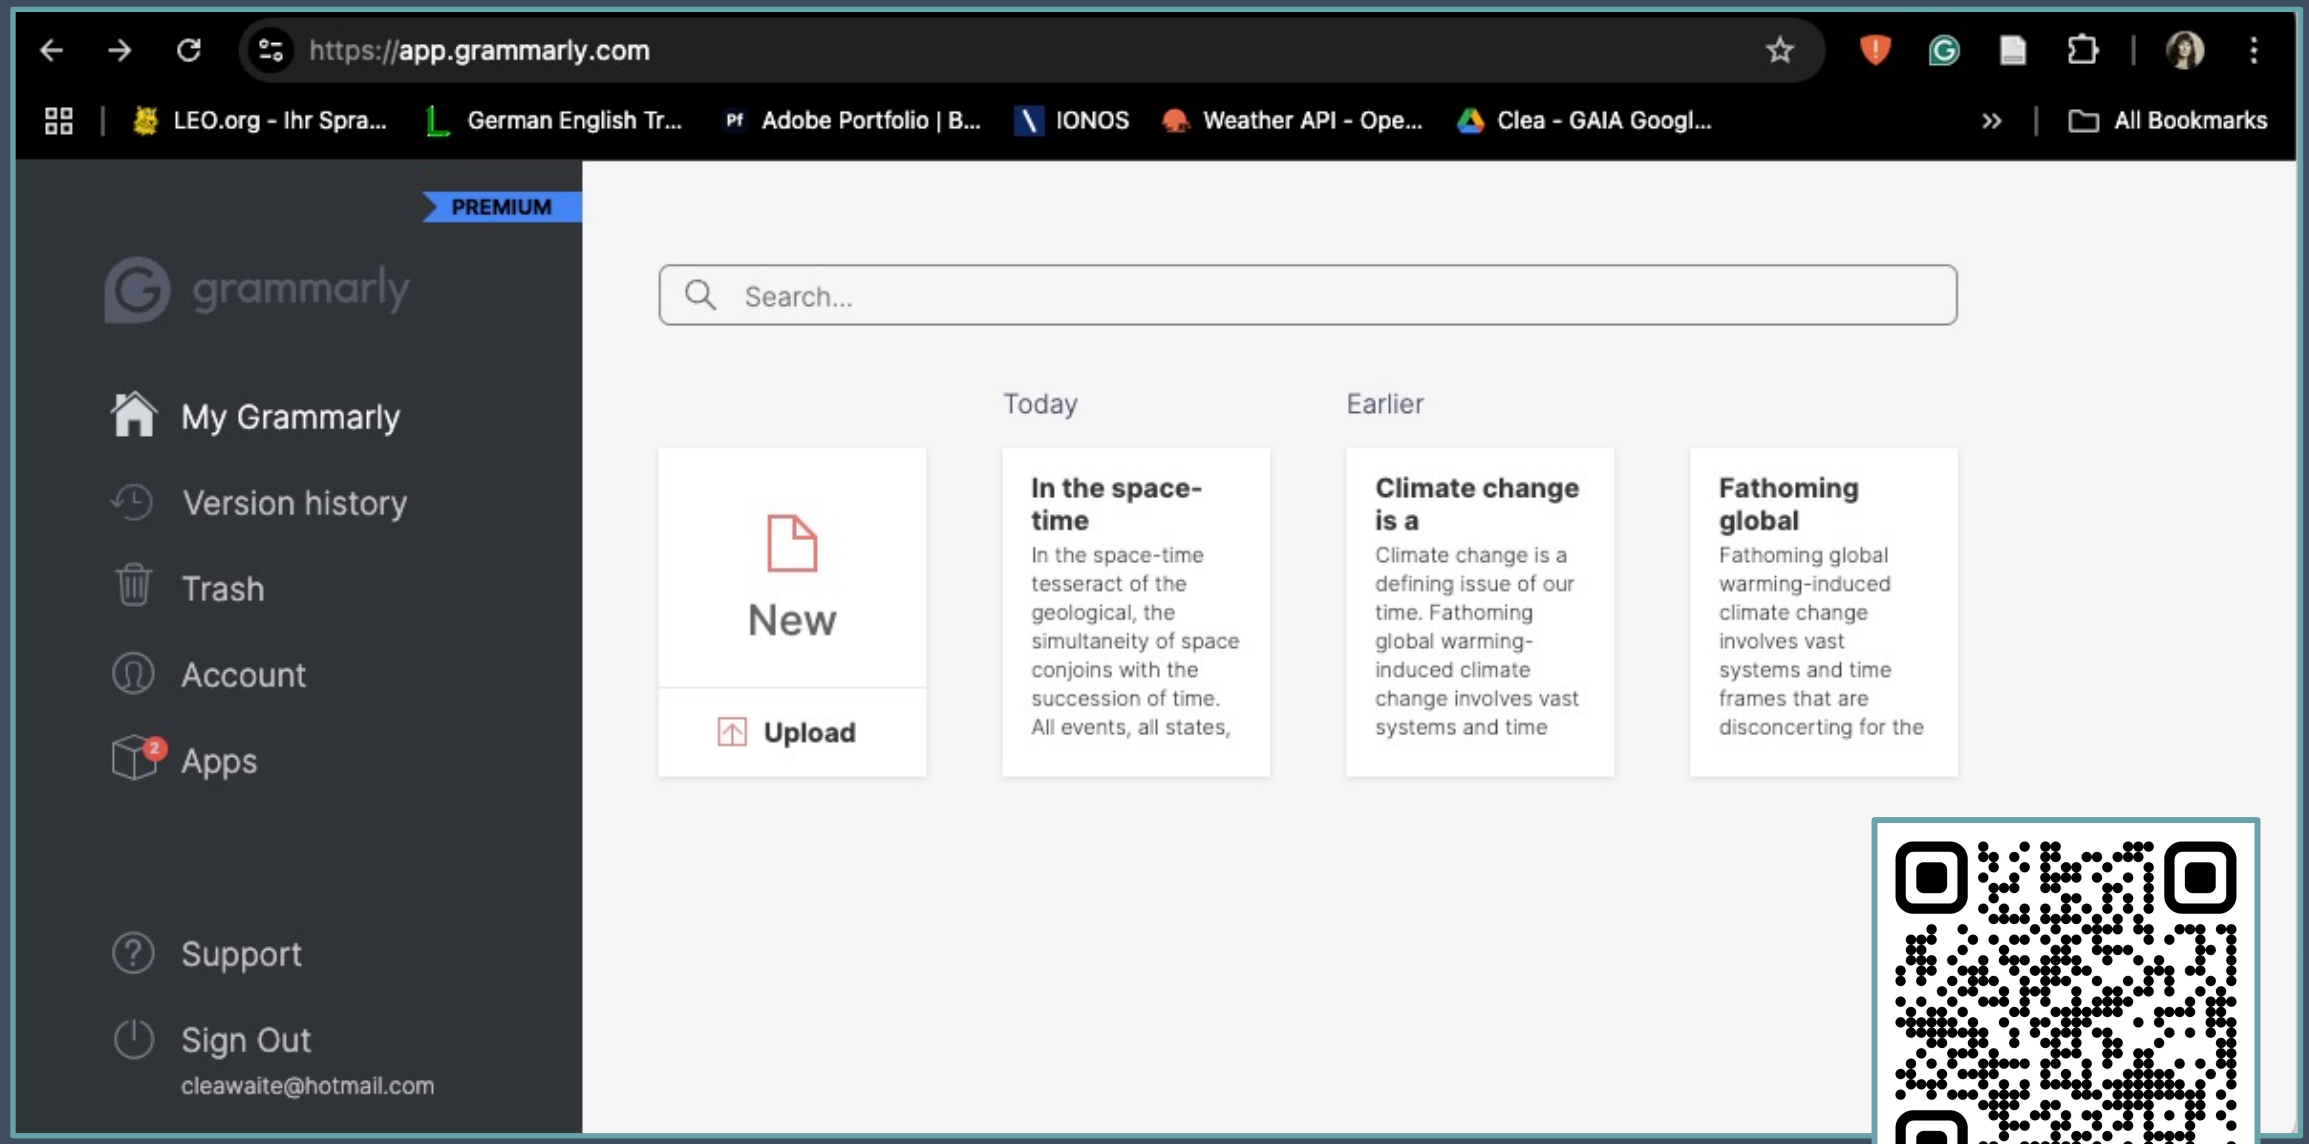


After you have downloaded and installed Grammarly for Microsoft Edge, you should be able to use it as you write online.

For more information about how Grammarly's browser extension works, check this guide.



Grammarly Web App

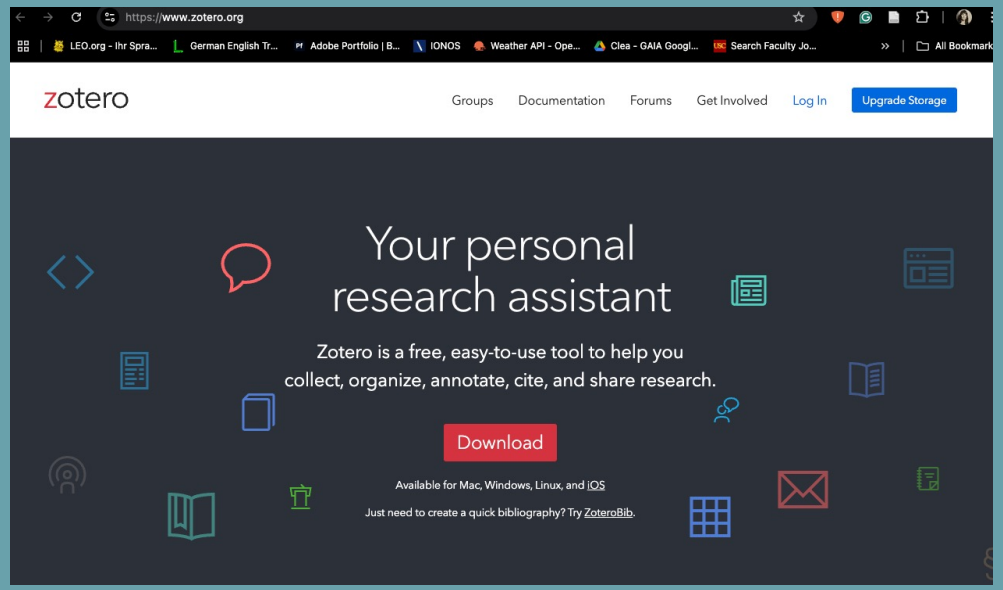


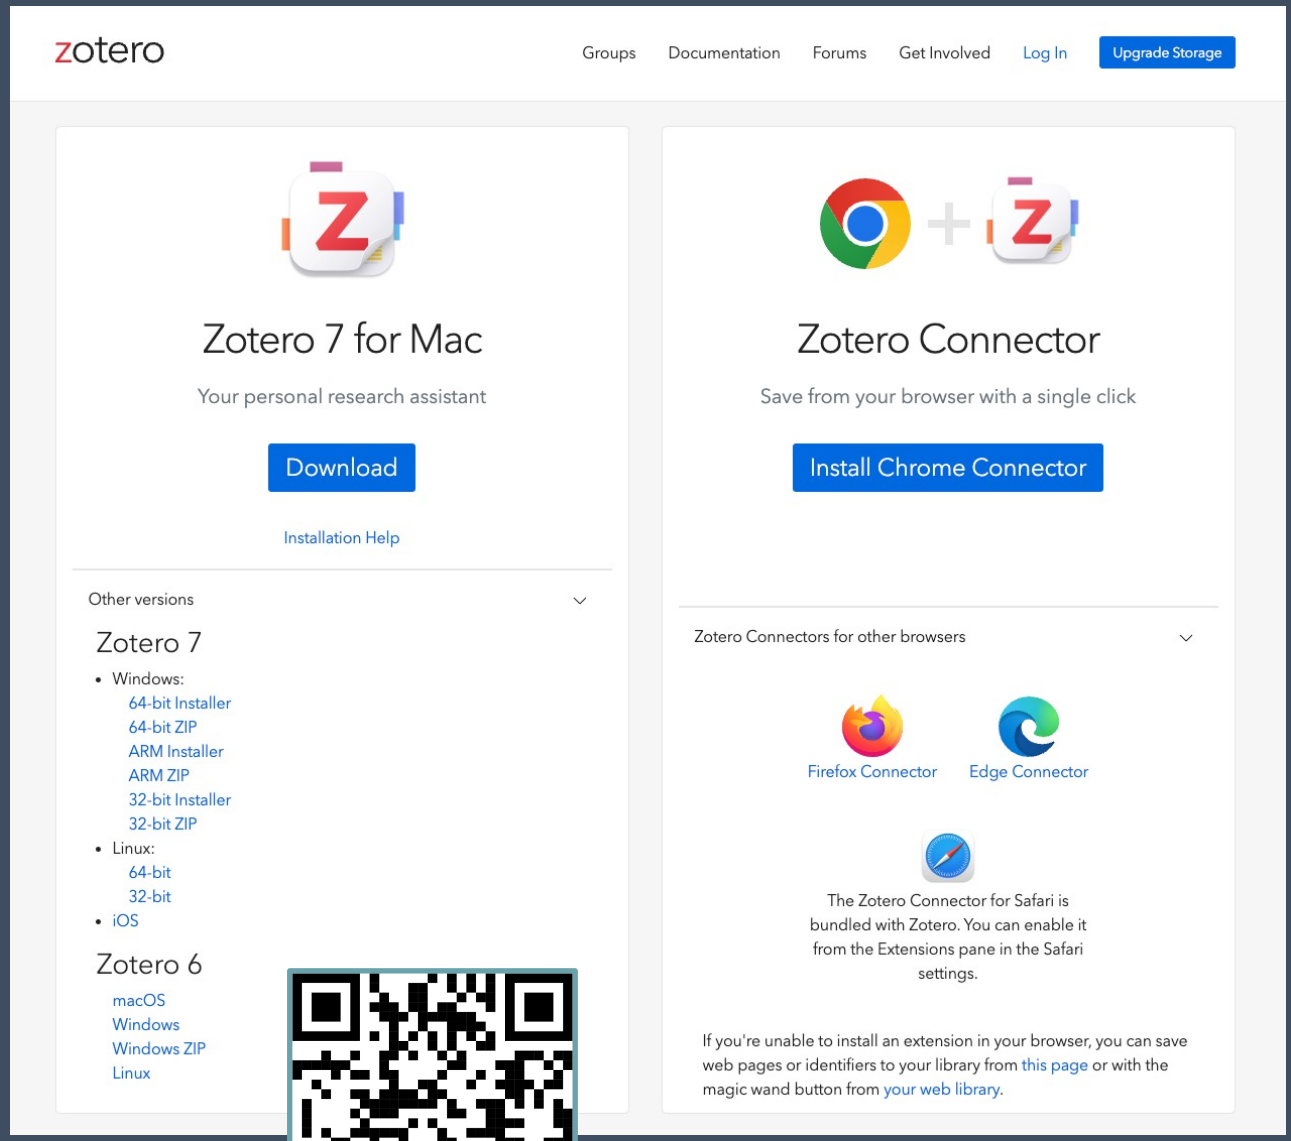
Zotero

Zotero connects your personal bibliographical database with your word processor and the web.

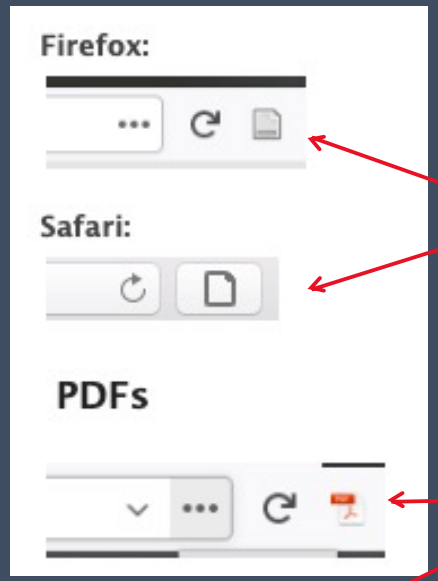
It allows you to input bib. data automatically directly from websites such as:

- Amazon books
- Google scholar
- IMDb
- etc



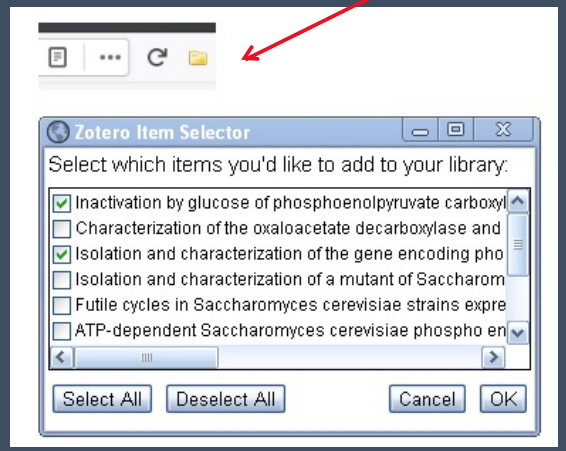


Zotero



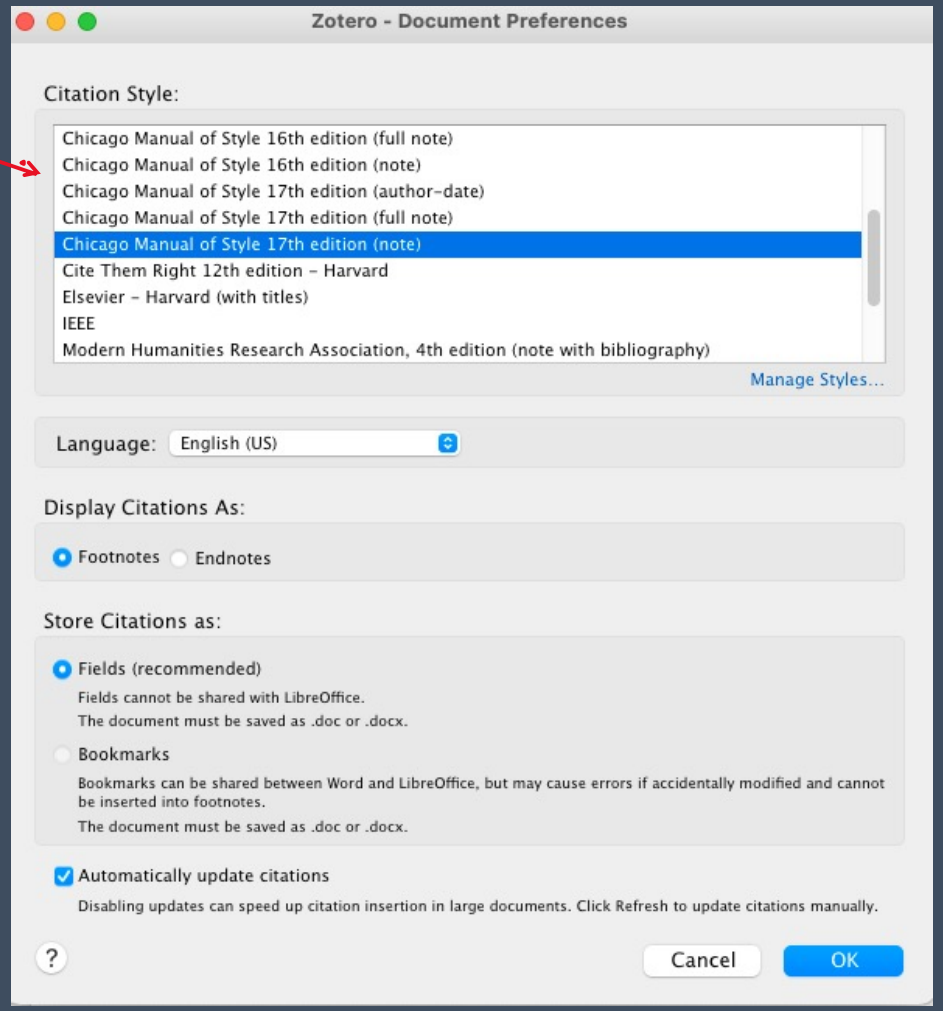
Web Browser Plugin

Different file types

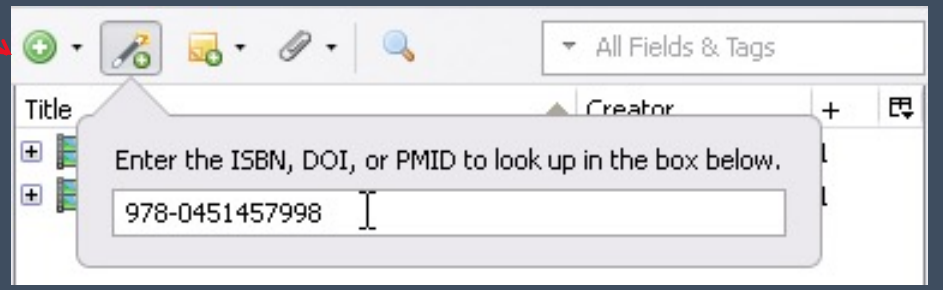


The *Zotero* Desktop App must be running for the Browser Plugin to work.

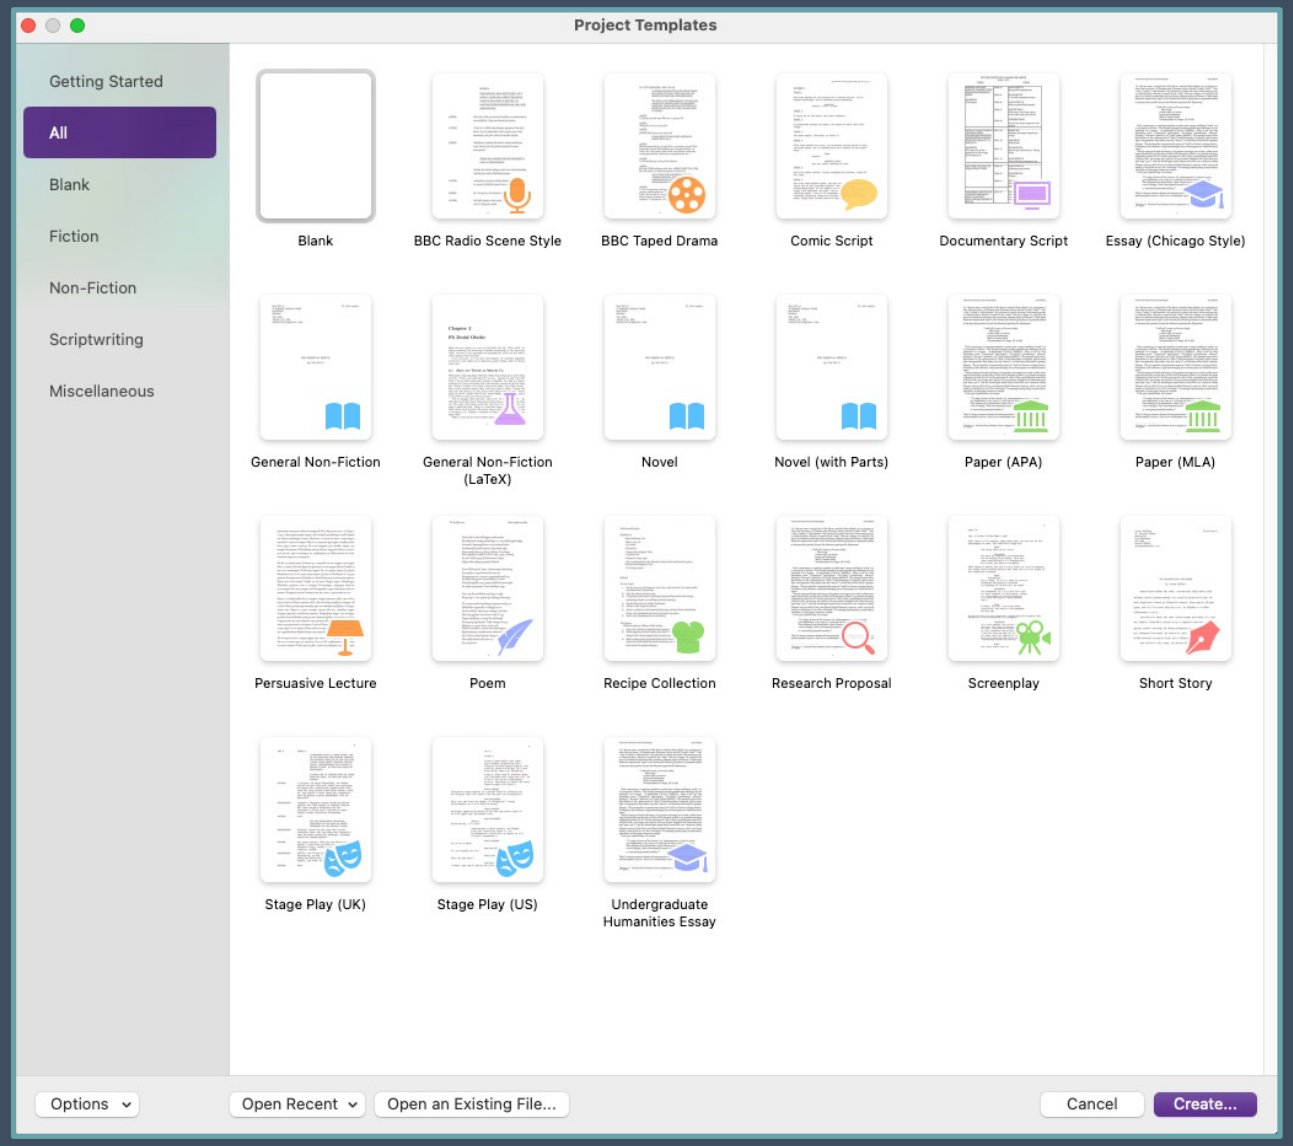
Citation style preferences in *Word*

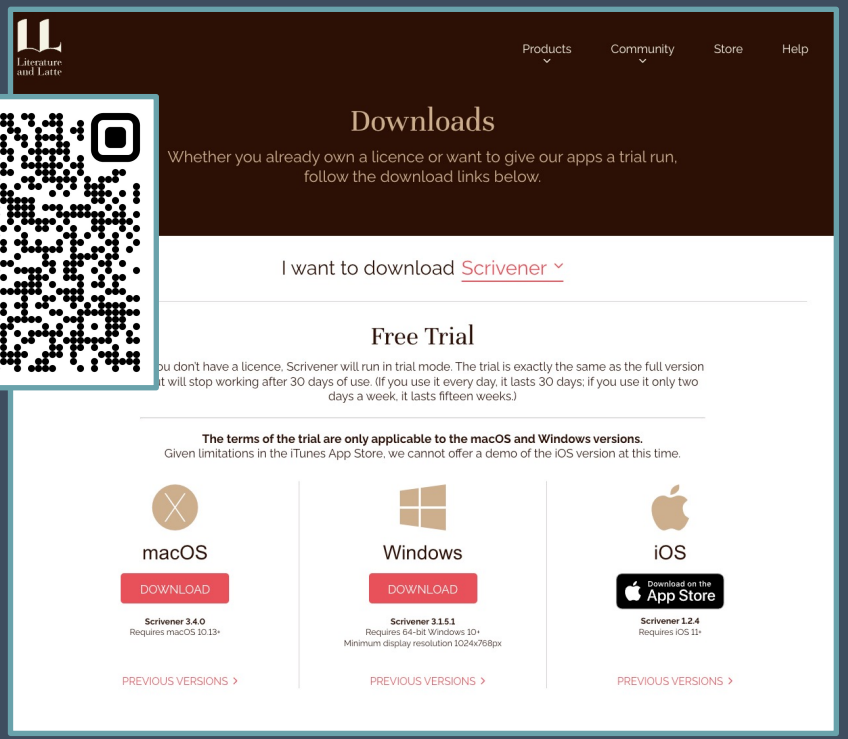


Zotero Desktop App – different input modes



Scrivener





Scrivener is a sophisticated writing tool that allows you to collect, compose, and organize your materials and your ideas. It gives you compositional flexibility.

Scrivener
